

## PHOENIX GRATE INSTALLATION GUIDE.

### STEP 1:

BEGIN WITH THE RIDDLE BAR CARRIER PICTURED BELOW. (PICTURE 1).

THE CARRIER SITS WITH THE SINGLE TAB FACING UPWARDS TOWARDS THE BACK OF THE STOVE, WITH THE TWO ADDITIONAL TABS FACING THE OUTSIDE OF STOVE. (PICTURE 2).

FROM HERE, YOU CAN LOWER THE CARRIER INTO POSITION, DOWN THROUGH THE GRATE, LEADING TO THE ASHPAN, THEN HOOK THE FIRST HOLE OF THE CARRIER TO THE CONTROL ARM UNDERNEATH.

**STEP 2:**

ONCE THE CARRIER IS IN POSITION, YOU CAN BEGIN TO INSTALL THE RIDDLE BARS. THE EASIEST WAY TO DO THIS IS BY HOLDING THE BARS AT AN ANGLE, INSERTING THE DOUBLE-PRONGED END FIRST, WITH THE LOWER PRONG INSERTING INTO THE CARRIER.
